Blue Ribbon Chiropractic

Dear Patient:

While Chiropractic seeks to render the best and safest care, please understand that examination and treatment of any kind has limitations and risks. With respect to Chiropractic, these may include:

Stroke (CVA): current research indicates that this is a rare complication that can occur in spite of pre-treatment screening. To prevent problems, it is vitally important that you inform us of ANY and ALL history of stroke, ultrasound testing of arteries and results, and of ANY medical condition or changes of health status.

Inflammation/Bruises: these are more common side effects of manipulation and may involve pain, soreness, stiffness, or skin discoloration. Symptoms are usually self-resolving, but can necessitate referral to your medical provider for medications to alleviate the symptoms.

Fracture: this complication can occur when bone is weakened by osteoporosis, cancer, chemotherapy, or other conditions.

Skin irritation: due to taping, hot pack use and/or ultrasound and electrical muscle stimulation pads, these are usually self-resolving.

I, undersigned, have been fully informed by my Chiropractic Physician that there is no such thing as a perfect test or procedure in health care, or Chiropractic. I have been informed of all potential treatment complications, alternative treatments, and consequences of no treatment. I hereby grant Lisa N. Braden, D.C. to examine and treat me as necessary now and into the indefinite future.

Payment is due when the service is rendered.

Dr. Lisa N. Braden, D.C. is committed to the success of your chiropractic treatment and better health. Your clear understanding of our financial policy is important to our professional relationship. Blue Ribbon Chiropractic is not currently in network with any insurance plans and we do not bill to Medicare/Medicaid/TriCare. Our office currently accepts Personal Checks, VISA, MasterCard, and FSA/HSA, as well as Cash payment.

Cancellation Policy:

A 24-hour notice is required for cancelled appointments. An office visit charge of $45 will be applied to your account if any appointment is "no showed". If rescheduled prior to 24-hours of appointment, no charge will be applied to your account.

We understand that things come up and emergencies happen. However, because we block 20-30 minutes in the appointment schedule for you to meet with the doctor, this causes others with health care needs seeking treatment unable to come in when our schedule is full. As a courtesy, text message reminders are sent to remind you of your upcoming appointment. Due to the variation of cell phone plans the lack of delivery of a text reminder does not exclude you from paying the $45 fee if an appointment is missed.

I understand the above terms:
